

# Strategic Capital Advisory Services

## Flexible Strategies Aligned With Your Mission and Long-term Goals

Alaska Permanent Capital Management (APCM) provides outsourced investment leadership for institutions that require transparency and flexibility — without relinquishing control.

As your strategic partner, we align investment strategy with your mission, governance structure, and long-term objectives. You set the direction. We deliver the expertise, execution, and infrastructure to move it forward — while you retain oversight and decision-making authority.

## Built for Institutional Complexity

For more than 30 years, APCM has served Alaska businesses, Alaska Native corporations, Tribal entities, permanent funds, endowments, and municipalities. As an SEC-registered investment advisor owned and operated by Alaskans, we bring institutional expertise grounded in regional understanding and fiduciary responsibility.

## Independent, Customized Portfolios

APCM constructs portfolios using customized separate accounts and does not utilize proprietary investment products. This conflict-free approach enables objective manager selection and portfolios tailored to each client's risk, liquidity, and return requirements — from fixed income to diversified multi-asset strategies.

## Institutional Expertise, Collaborative Approach

Our investment team brings decades of experience, with multiple Chartered Financial Analyst® (CFA®) professionals. Working closely with clients, we provide disciplined portfolio management, strategic insight, and transparent reporting to support confident decision-making.

**APCM's advisory services deliver more than investment management — they provide a strategic partnership built for long-term stewardship and generational impact.**

# Strategic Planning and Capital Stewardship

## Aligning Vision, Governance, and Capital for Generational Impact

APCM partners with Tribal Nations and Alaska Native corporations to align vision, governance, and capital — so strategy becomes action and investments support generational impact. APCM brings deep experience serving Tribal Nations, Alaska Native corporations, municipalities, for-profit businesses, and nonprofit organizations.

## A Different Model for Strategy

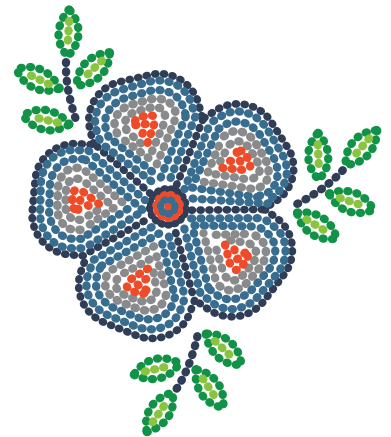

Strategic planning in Indigenous institutions is more than organizational alignment — it is an expression of sovereignty and stewardship.

APCM facilitates strategic planning processes that build shared direction, clear priorities, and practical pathways to implementation.

## From Vision to Action: Capital Aligned with Purpose

### We Help Institutions:

- Define strategic priorities and measurable outcomes
- Align boards, leadership, and operations
- Embed strategy into decision-making and governance
- Align investments with long-term goals
- Balance growth, liquidity, and flexibility
- Strengthen governance around financial decisions

**Strategy becomes a living practice, not a static plan.**
